EDITORIAL

It's about time for good weather and spring is upon us. It is the time when some students start to drink a lot. It doesn't make you "big" and "bad", it just makes a fool out of you. It makes you act dumb, and brings more problems for the school. If you care enough to help keep the school open, then you will stop all this nonsense of drinking every chance you get.

Drinking isn't good it just causes hurt afterwards. You may drink because you have problems at home, drinking doesn't solve anything, it just brings more problems to you, and the school. They have sent some of the students home because of this drinking problem but do you think they cared? If you want to go home, all you have to do is just tell Mr. Moore, you don't have to go out and drink to be sent home. It isn't going to hurt you, because none of you are what they call ALCOHOLICS! Please for your sake and the schools', "STOP".
